Certified Financial Planner® (CFP®); Certified Financial Planner Board of Standards Inc.; 2004

I am certified for financial planning services in the United States by Certified Financial Planner Board of Standards, Inc. ("CFP Board"). Therefore, I may refer to myself as a CERTIFIED FINANCIAL PLANNER® professional or a CFP® professional, and I may use these and CFP Board's other certification marks (the "CFP Board Certification Marks"). The CFP® certification is voluntary. No federal or state law or regulation requires financial planners to hold the CFP® certification. You may find more information about the CFP® certification at www.cfp.net.

CFP® professionals have met CFP Board's high standards for education, examination, experience, and ethics. To become a CFP® professional, an individual must fulfill the following requirements:

- **Education** – Earn a bachelor's degree or higher from an accredited college or university and complete CFP Board-approved coursework at a college or university through a CFP Board Registered Program. The coursework covers the financial planning subject areas CFP Board has determined are necessary for the competent and professional delivery of financial planning services, as well as a comprehensive financial plan development capstone course. A candidate may satisfy some of the coursework requirement through other qualifying credentials. CFP Board implemented the bachelor's degree or higher requirement in 2007 and the financial planning development capstone course requirement in March 2012. Therefore, a CFP® professional who first became certified before those dates may not have earned a bachelor's or higher degree or completed a financial planning development capstone course.

- **Examination** – Pass the comprehensive CFP® Certification Examination. The examination is designed to assess an individual’s ability to integrate and apply a broad base of financial planning knowledge in the context of real-life financial planning situations.
- **Experience** – Complete 6,000 hours of professional experience related to the personal financial planning process, or 4,000 hours of apprenticeship experience that meets additional requirements.
- **Ethics** – Satisfy the *Fitness Standards for Candidates for CFP® Certification and Former CFP® Professionals Seeking Reinstatement* and agree to be bound by CFP Board’s *Code of Ethics and Standards of Conduct* (“*Code and Standards*”), which sets forth the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements to remain certified and maintain the right to continue to use the CFP Board Certification Marks:

- **Ethics** – Commit to complying with CFP Board’s *Code and Standards*. This includes a commitment to CFP Board, as part of the certification, to act as a fiduciary, and therefore, act in the best interests of the client, at all times when providing financial advice and financial planning. CFP Board may sanction a CFP® professional who does not abide by this commitment, but CFP Board does not guarantee a CFP® professional's services. A client who seeks a similar commitment should obtain a written engagement that includes a fiduciary obligation to the client.
- **Continuing Education** – Complete 30 hours of continuing education every two years to maintain competence, demonstrate specified levels of knowledge, skills, and abilities, and keep up with developments in financial planning. Two of the hours must address the *Code and Standards*.

Accredited Asset Management Specialist™; College for Financial Planning®; 2002

The AAMS™ is awarded by the College for Financial Planning® to investment professionals who complete its 12-module AAMS™ Professional Education Program, pass an examination, commit to a code of ethics and agree to pursue continuing education. Continued use of the AAMS™ designation is subject to ongoing renewal requirements. Every two (2) years the designee must renew their right to continue using the AAMS™ designation by completing 16 hours of continuing education and reaffirming to abide by the Standards of Professional Conduct.

Chartered Mutual Fund Counselor™; College for Financial Planning®; 2003

The College for Financial Planning® provides CMFC™ students with a thorough education focusing exclusively on mutual funds. The CMFC™ program emphasizes how to thoroughly evaluate mutual funds as well as how to use that information to make appropriate recommendations. Individuals who hold the CMFC™ designation have completed a course of study encompassing all aspects of mutual funds and their uses as investment vehicles. The program is designed for approximately 120-150 hours of self-study. The program is self-paced and must be completed within one year from enrollment. All CMFC™ designees must sign a commitment to ongoing continuing education credit to ensure that they stay current in the field.

Accredited Wealth Management Advisor™; College for Financial Planning®; 2005

AWMA™ is a professional designation administered by the College for Financial Planning®. Candidates receive training in investment for retirement, strategies for small business owners, the management of deferred compensation plans, insurance, estate planning, asset protection, and tax reduction issues. Candidates are required to complete a final examination testing these topics. All candidates are subject to ongoing ethics and educational requirements.

Accredited Portfolio Management Advisor™; College for Financial Planning®; 2013

Individuals who hold the APMA™ designation have completed a course of study encompassing client assessment and suitability, risk/return, investment objectives, bond and equity portfolios, modern portfolio theory and investor psychology. Students have hands-on practice in analyzing investment policy statements, building portfolios, and making asset allocation decisions

including sell, hold, and buy decisions within a client's portfolio. The program consists of two parts designed for a total of approximately 120-150 hours of study. The first part includes an 11 module self-study course with an online, proctored exam. Students successfully completing the exam matriculate to the second part of the program. That part consists of a four week, instructor-led, online graduate course requiring successful completion of several graded assignments involving investor policy statements, portfolio construction, asset allocation, and portfolio buy, sell, and hold decisions. The program must be completed within one year from enrollment.

Chartered Financial Analyst® (CFA®); CFA Institute; 2025

CFA® designates an international professional certificate that is offered by the CFA Institute. The Chartered Financial Analyst® (CFA®) charter is a globally respected, graduate-level investment credential established in 1962 and awarded by CFA Institute — the largest global association of investment professionals.

There are currently more than 200,000 CFA® Charterholders working in over 170 countries and regions. To earn the CFA® charter, candidates must: (1) pass three sequential, six-hour examinations; (2) have at least four years of qualified professional investment experience; (3) join CFA Institute as members; and (4) commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

High Ethical Standards

The CFA Institute Code of Ethics and Standards of Professional Conduct, enforced through an active professional conduct program, require CFA® Charterholders to:

- Place their clients' interests ahead of their own
- Maintain independence and objectivity
- Act with integrity

- Maintain and improve their professional competence
- Disclose conflicts of interest and legal matters

Global Recognition

Passing the three CFA exams is a difficult feat that requires extensive study (successful candidates report spending an average of 300 hours of study per level). Earning the CFA® charter demonstrates mastery of many of the advanced skills needed for investment analysis and decision making in today’s quickly evolving global financial industry. As a result, employers and clients are increasingly seeking CFA® Charterholders —often making the charter a prerequisite for employment. Additionally, regulatory bodies in 38 countries/territories recognize the CFA® charter as a proxy for meeting certain licensing requirements, and more than 466 colleges and universities around the world have incorporated a majority of the CFA Program curriculum into their own finance courses.

Comprehensive and Current Knowledge

The CFA Program curriculum provides a comprehensive framework of knowledge for investment decision making and is firmly grounded in the knowledge and skills used every day in the investment profession. The three levels of the CFA Program test a proficiency with a wide range of fundamental and advanced investment topics, including ethical and professional standards, fixed-income and equity analysis, alternative and derivative investments, economics, financial reporting standards, portfolio management, and wealth planning.

The CFA Program curriculum is updated every year by experts from around the world to ensure that candidates learn the most relevant and practical new tools, ideas, and investment and wealth management skills to reflect the dynamic and complex nature of the profession.

To learn more about the CFA charter, visit www.cfainstitute.org.

Certified Public Accountant (CPA); American Institute of Certified Public Accountants; 2013

CPAs are licensed and regulated by their state boards of accountancy. While state laws and regulations vary, the education, experience and testing requirements for licensure as a CPA generally include: (1) minimum college education (typically 150 credit hours with at least a

baccalaureate degree and a concentration in accounting); (2) minimum experience levels (most states require at least one year of experience providing services that involve the use of accounting, attest, compilation, management advisory, financial advisory, tax or consulting skills, all of which must be achieved under the supervision of or verification by a CPA); and (3) successful passage of the Uniform CPA Examination.

American Institute of Certified Public Accountants (AICPA) members are required to follow a rigorous Code of Professional Conduct which requires that they act with integrity, objectivity, due care, competence, fully disclose any conflicts of interest (and obtain client consent if a conflict exists), maintain client confidentiality, disclose to the client any commission or referral fees, and serve the public interest when providing financial services. The vast majority of state boards of accountancy have adopted the AICPA's Code of Professional Conduct within their state accountancy laws or have created their own.

In order to maintain a CPA license, states generally require the completion of 40 hours of continuing professional education each year (or 80 hours over a two-year period or 120 hours over a three-year period).

To learn more about the CPA license, visit www.aicpa.org.

Accredited Wealth Management Advisor™; College for Financial Planning®; 2017

Individuals who hold the AWMA™ designation have completed a course of study encompassing wealth strategies, equity-based compensation plans, tax reduction alternatives, and asset protection alternatives. The program is designed for approximately 120-150 hours of self-study. The program is self-paced and must be completed within one year from enrollment.

Chartered Financial Analyst® (CFA®); CFA Institute; 2019

CFA® designates an international professional certificate that is offered by the CFA Institute. The Chartered Financial Analyst® (CFA®) charter is a globally respected, graduate-level investment credential established in 1962 and awarded by CFA Institute — the largest global association of investment professionals.

There are currently more than 200,000 CFA® Charterholders working in over 170 countries and regions. To earn the CFA® charter, candidates must: (1) pass three sequential, six-hour examinations; (2) have at least four years of qualified professional investment experience; (3) join CFA Institute as members; and (4) commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

High Ethical Standards

The CFA Institute Code of Ethics and Standards of Professional Conduct, enforced through an active professional conduct program, require CFA® Charterholders to:

- Place their clients' interests ahead of their own
- Maintain independence and objectivity
- Act with integrity
- Maintain and improve their professional competence
- Disclose conflicts of interest and legal matters

Global Recognition

Passing the three CFA exams is a difficult feat that requires extensive study (successful candidates report spending an average of 300 hours of study per level). Earning the CFA® charter demonstrates mastery of many of the advanced skills needed for investment analysis and decision making in today's quickly evolving global financial industry. As a result, employers and clients are increasingly seeking CFA® Charterholders —often making the charter a prerequisite for

employment. Additionally, regulatory bodies in 38 countries/territories recognize the CFA® charter as a proxy for meeting certain licensing requirements, and more than 466 colleges and universities around the world have incorporated a majority of the CFA Program curriculum into their own finance courses.

Comprehensive and Current Knowledge

The CFA Program curriculum provides a comprehensive framework of knowledge for investment decision making and is firmly grounded in the knowledge and skills used every day in the investment profession. The three levels of the CFA Program test a proficiency with a wide range of fundamental and advanced investment topics, including ethical and professional standards, fixed-income and equity analysis, alternative and derivative investments, economics, financial reporting standards, portfolio management, and wealth planning.

The CFA Program curriculum is updated every year by experts from around the world to ensure that candidates learn the most relevant and practical new tools, ideas, and investment and wealth management skills to reflect the dynamic and complex nature of the profession.

Certified Financial Planner® (CFP®); Certified Financial Planner Board of Standards Inc.; 2019

I am certified for financial planning services in the United States by Certified Financial Planner Board of Standards, Inc. ("CFP Board"). Therefore, I may refer to myself as a CERTIFIED FINANCIAL PLANNER® professional or a CFP® professional, and I may use these and CFP Board's other certification marks (the "CFP Board Certification Marks"). The CFP® certification is voluntary. No federal or state law or regulation requires financial planners to hold the CFP® certification. You may find more information about the CFP® certification at www.cfp.net.

CFP® professionals have met CFP Board's high standards for education, examination, experience, and ethics. To become a CFP® professional, an individual must fulfill the following requirements:

- **Education** – Earn a bachelor's degree or higher from an accredited college or university and complete CFP Board-approved coursework at a college or university through a CFP Board Registered Program. The coursework covers the financial planning subject areas CFP Board has determined are necessary for the competent and professional delivery of financial planning services, as well as a comprehensive financial plan development capstone course. A candidate may satisfy some of the coursework requirement through other qualifying credentials. CFP Board implemented the bachelor's degree or higher requirement in 2007 and the financial planning development capstone course requirement in March 2012. Therefore, a CFP® professional who first became certified before those dates may not have earned a bachelor's or higher degree or completed a financial planning

development capstone course.

- **Examination** – Pass the comprehensive CFP® Certification Examination. The examination is designed to assess an individual’s ability to integrate and apply a broad base of financial planning knowledge in the context of real-life financial planning situations.
- **Experience** – Complete 6,000 hours of professional experience related to the personal financial planning process, or 4,000 hours of apprenticeship experience that meets additional requirements.
- **Ethics** – Satisfy the *Fitness Standards for Candidates for CFP® Certification and Former CFP® Professionals Seeking Reinstatement* and agree to be bound by CFP Board’s *Code of Ethics and Standards of Conduct* (“*Code and Standards*”), which sets forth the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements to remain certified and maintain the right to continue to use the CFP Board Certification Marks:

- **Ethics** – Commit to complying with CFP Board’s *Code and Standards*. This includes a commitment to CFP Board, as part of the certification, to act as a fiduciary, and therefore, act in the best interests of the client, at all times when providing financial advice and financial planning. CFP Board may sanction a CFP® professional who does not abide by this commitment, but CFP Board does not guarantee a CFP® professional's services. A client who seeks a similar commitment should obtain a written engagement that includes a fiduciary obligation to the client.
- **Continuing Education** – Complete 30 hours of continuing education every two years to maintain competence, demonstrate specified levels of knowledge, skills, and abilities, and keep up with developments in financial planning. Two of the hours must address the *Code and Standards*.

Item 3 Disciplinary Information

Henry VanBuskirk has no reportable disciplinary history.

Item 4 Other Business Activities

Henry VanBuskirk is not engaged in any other investment or non-investment-related activities.

Henry VanBuskirk does not receive commissions, bonuses, or other compensation on the sale of securities or other investment products.

Item 5 Additional Compensation

Henry VanBuskirk is eligible to receive certain financial incentives, including salary adjustments and a potential bonus, based on existing firm assets under management and, in some cases, new firm assets.

Item 6 Supervision

All of our firms' employees must comply with applicable federal securities laws and as fiduciaries, act solely in your best interests and make full and balanced disclosure of all material facts. Failure to do so may result in disciplinary action, including termination of employment.

The Chief Compliance Officer (CCO) is charged with monitoring the firm's personnel in the context of its fiduciary duties. The CCO will provide training and readily available resources for the employees of our firm to assist them in understanding what conduct is or is not permissible.

Michael Allbee, Chief Compliance Officer, supervises and monitors *Henry VanBuskirk's* activities on a regular basis.

In addition, our firm has been organized as a hierarchy to provide checks and balances within the various departments of the firm.

Chartered Financial Analyst® (CFA®); CFA Institute; 2006

CFA® designates an international professional certificate that is offered by the CFA Institute. The Chartered Financial Analyst® (CFA®) charter is a globally respected, graduate-level investment credential established in 1962 and awarded by CFA Institute — the largest global association of investment professionals.

There are currently more than 200,000 CFA® Charterholders working in over 170 countries and regions. To earn the CFA® charter, candidates must: (1) pass three sequential, six-hour examinations; (2) have at least four years of qualified professional investment experience; (3) join CFA Institute as members; and (4) commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

High Ethical Standards

The CFA Institute Code of Ethics and Standards of Professional Conduct, enforced through an active professional conduct program, require CFA® Charterholders to:

- Place their clients’ interests ahead of their own
- Maintain independence and objectivity
- Act with integrity
- Maintain and improve their professional competence
- Disclose conflicts of interest and legal matters

Global Recognition

Passing the three CFA exams is a difficult feat that requires extensive study (successful candidates report spending an average of 300 hours of study per level). Earning the CFA® charter demonstrates mastery of many of the advanced skills needed for investment analysis and decision making in today's quickly evolving global financial industry. As a result, employers and clients are increasingly seeking CFA® Charterholders —often making the charter a prerequisite for employment. Additionally, regulatory bodies in 38 countries/territories recognize the CFA® charter as a proxy for meeting certain licensing requirements, and more than 466 colleges and universities around the world have incorporated a majority of the CFA Program curriculum into their own finance courses.

Comprehensive and Current Knowledge

The CFA Program curriculum provides a comprehensive framework of knowledge for investment decision making and is firmly grounded in the knowledge and skills used every day in the investment profession. The three levels of the CFA Program test a proficiency with a wide range of fundamental and advanced investment topics, including ethical and professional standards, fixed-income and equity analysis, alternative and derivative investments, economics, financial reporting standards, portfolio management, and wealth planning.

The CFA Program curriculum is updated every year by experts from around the world to ensure that candidates learn the most relevant and practical new tools, ideas, and investment and wealth management skills to reflect the dynamic and complex nature of the profession.

Item 2 Educational Background and Business Experience

Name: Patrick Powers

Year of Birth: 1950

Formal Education after high school: Mr. Powers is a CFA[®] charterholder, Certified Financial Planner[®] professional, and a retired Certified Public Accountant with a Personal Financial Specialist designation (CPA/PFS). He earned a Bachelor's Degree in Business Administration from California State University, Fullerton in 1973 with a major in Accounting.

Mr. Powers is a Founding Principal of BFSG. He has been in the financial services industry for over 30 years and is responsible for BFSG business decisions and giving advice to clients. He is a member of BFSG's Investment Research Team.

2016 to present Founding Principal with BFSG, LLC

2016 to present Investment Advisor Representative with BFSG, LLC

2007 to 2016 President and Chief Investment Officer with Powers Capital Investments, Inc.

2002 to 2007 Vice President with Riverplace Capital Management, Inc.

1989 to 2002 President and Chief Investment Officer with Powers Capital, Inc.

Chartered Financial Analyst[®] (CFA[®]); CFA Institute; 1994

CFA[®] designates an international professional certificate that is offered by the CFA Institute. The Chartered Financial Analyst[®] (CFA[®]) charter is a globally respected, graduate-level investment credential established in 1962 and awarded by CFA Institute — the largest global association of investment professionals.

There are currently more than 200,000 CFA[®] Charterholders working in over 170 countries and regions. To earn the CFA[®] charter, candidates must: (1) pass three sequential, six-hour examinations; (2) have at least four years of qualified professional investment experience; (3) join CFA Institute as members; and (4) commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

High Ethical Standards

The CFA Institute Code of Ethics and Standards of Professional Conduct, enforced through an active professional conduct program, require CFA[®] Charterholders to:

- Place their clients' interests ahead of their own
- Maintain independence and objectivity
- Act with integrity
- Maintain and improve their professional competence
- Disclose conflicts of interest and legal matters

Global Recognition

Passing the three CFA exams is a difficult feat that requires extensive study (successful candidates report spending an average of 300 hours of study per level). Earning the CFA[®] charter demonstrates mastery of many of the advanced skills needed for investment analysis and decision making in today's quickly evolving global financial industry. As a result, employers and clients

are increasingly seeking CFA[®] Charterholders —often making the charter a prerequisite for employment. Additionally, regulatory bodies in 38 countries/territories recognize the CFA[®] charter as a proxy for meeting certain licensing requirements, and more than 466 colleges and universities around the world have incorporated a majority of the CFA Program curriculum into their own finance courses.

Comprehensive and Current Knowledge

The CFA Program curriculum provides a comprehensive framework of knowledge for investment decision making and is firmly grounded in the knowledge and skills used every day in the investment profession. The three levels of the CFA Program test a proficiency with a wide range of fundamental and advanced investment topics, including ethical and professional standards, fixed-income and equity analysis, alternative and derivative investments, economics, financial reporting standards, portfolio management, and wealth planning.

The CFA Program curriculum is updated every year by experts from around the world to ensure that candidates learn the most relevant and practical new tools, ideas, and investment and wealth management skills to reflect the dynamic and complex nature of the profession.

Certified Financial Planner[®] (CFP[®]); Certified Financial Planner Board of Standards Inc.; 1995

I am certified for financial planning services in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP Board”). Therefore, I may refer to myself as a CERTIFIED FINANCIAL PLANNER[®] professional or a CFP[®] professional, and I may use these and CFP Board’s other certification marks (the “CFP Board Certification Marks”). The CFP[®] certification is voluntary. No federal or state law or regulation requires financial planners to hold the CFP[®] certification. You may find more information about the CFP[®] certification at www.cfp.net.

CFP[®] professionals have met CFP Board’s high standards for education, examination, experience, and ethics. To become a CFP[®] professional, an individual must fulfill the following requirements:

- **Education** – Earn a bachelor’s degree or higher from an accredited college or university and complete CFP Board-approved coursework at a college or university through a CFP Board Registered Program. The coursework covers the financial planning subject areas CFP Board has determined are necessary for the competent and professional delivery of financial planning services, as well as a comprehensive financial plan development capstone course. A candidate may satisfy some of the coursework requirement through other qualifying credentials. CFP Board implemented the bachelor’s degree or higher requirement in 2007 and the financial planning development capstone course requirement in March 2012. Therefore, a CFP[®] professional who first became certified before those dates may not have earned a bachelor’s or higher degree or completed a financial planning

development capstone course.

- **Examination** – Pass the comprehensive CFP® Certification Examination. The examination is designed to assess an individual’s ability to integrate and apply a broad base of financial planning knowledge in the context of real-life financial planning situations.
- **Experience** – Complete 6,000 hours of professional experience related to the personal financial planning process, or 4,000 hours of apprenticeship experience that meets additional requirements.
- **Ethics** – Satisfy the *Fitness Standards for Candidates for CFP® Certification and Former CFP® Professionals Seeking Reinstatement* and agree to be bound by CFP Board’s *Code of Ethics and Standards of Conduct* (“*Code and Standards*”), which sets forth the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements to remain certified and maintain the right to continue to use the CFP Board Certification Marks:

- **Ethics** – Commit to complying with CFP Board’s *Code and Standards*. This includes a commitment to CFP Board, as part of the certification, to act as a fiduciary, and therefore, act in the best interests of the client, at all times when providing financial advice and financial planning. CFP Board may sanction a CFP® professional who does not abide by this commitment, but CFP Board does not guarantee a CFP® professional's services. A client who seeks a similar commitment should obtain a written engagement that includes a fiduciary obligation to the client.
- **Continuing Education** – Complete 30 hours of continuing education every two years to maintain competence, demonstrate specified levels of knowledge, skills, and abilities, and keep up with developments in financial planning. Two of the hours must address the *Code and Standards*.

Certified Public Accountant (CPA); American Institute of Certified Public Accountants; 2005 (Retired)

CPAs are licensed and regulated by their state boards of accountancy. While state laws and regulations vary, the education, experience and testing requirements for licensure as a CPA generally include: (1) minimum college education (typically 150 credit hours with at least a baccalaureate degree and a concentration in accounting); (2) minimum experience levels (most states require at least one year of experience providing services that involve the use of accounting, attest, compilation, management advisory, financial advisory, tax or consulting skills, all of which must be achieved under the supervision of or verification by a CPA); and (3) successful passage of the Uniform CPA Examination.

American Institute of Certified Public Accountants (AICPA) members are required to follow a rigorous Code of Professional Conduct which requires that they act with integrity, objectivity, due care, competence, fully disclose any conflicts of interest (and obtain client consent if a

conflict exists), maintain client confidentiality, disclose to the client any commission or referral fees, and serve the public interest when providing financial services. The vast majority of state boards of accountancy have adopted the AICPA's Code of Professional Conduct within their state accountancy laws or have created their own.

In order to maintain a CPA license, states generally require the completion of 40 hours of continuing professional education each year (or 80 hours over a two-year period or 120 hours over a three-year period).

To learn more about the CPA license, visit www.aicpa.org.

Personal Financial Specialist (PFS); American Institute of Certified Public Accountants; 2006

The PFS credential demonstrates that an individual has met the minimum education, experience and testing required of a CPA in addition to a minimum level of expertise in personal financial planning. To attain the PFS credential, a candidate must hold an unrevoked CPA license, certificate, or permit, none of which are in inactive status; fulfill 3,000 hours of personal financial planning business experience; complete 75 hours of personal financial planning CPE credits; pass a comprehensive financial planning exam and be an active member of the AICPA. A PFS credential holder is required to adhere to AICPA's *Code of Professional Conduct* and the *Statement on Standards in Personal Financial Planning Services*, when providing personal financial planning services. To maintain their PFS credential, the recipient must complete 60 hours of financial planning CPE credits every three years. The PFS credential is administered through the AICPA.

To learn more about the PFS credential, visit www.aicpa.org.

Item 3 Disciplinary Information

Patrick Powers has no reportable disciplinary history.

Item 4 Other Business Activities

Patrick D. Powers is a limited partner in a limited partnership ("LP") formed for investment purposes. The LP was formed for the benefit of the family of Patrick D. Powers. Clients are not solicited to invest in the LP.

The LP may own an interest in or buy or sell for its account(s), the same securities which may be purchased or sold in the accounts of clients. The LP account(s) may be included within an aggregated order. We have established written policies and procedures for employee trading that state clients should be receiving terms as favorable as or better than employees.

Patrick D. Powers is not engaged in any other business or occupation that provides substantial compensation or involves a substantial amount of his time.

Patrick Powers does not receive commissions, bonuses, or other compensation on the sale of securities or other investment products.

Item 5 Additional Compensation

Patrick Powers is eligible for additional compensation from our indirect parent company, Focus Financial Partners, LLC (or one of its affiliates), depending on our annual revenues and/or earnings. This potential for increased compensation provides an incentive for *Patrick Powers* to encourage you to maintain and even increase the size of your investment account with us.

Item 6 Supervision

Chartered Mutual Fund CounselorTM; College for Financial Planning[®]; 2015

The College for Financial Planning[®] provides CMFCTM students with a thorough education focusing exclusively on mutual funds. The CMFCTM program emphasizes how to thoroughly evaluate mutual funds as well as how to use that information to make appropriate recommendations. Individuals who hold the CMFCTM designation have completed a course of study encompassing all aspects of mutual funds and their uses as investment vehicles. The program is designed for approximately 120-150 hours of self-study. The program is self-paced and must be completed within one year from enrollment. All CMFCTM designees must sign a commitment to ongoing continuing education credit to ensure that they stay current in the field.

Accredited Portfolio Management AdvisorTM; College for Financial Planning[®]; 2018

Individuals who hold the APMATM designation have completed a course of study encompassing client assessment and suitability, risk/return, investment objectives, bond and equity portfolios, modern portfolio theory and investor psychology. Students have hands-on practice in analyzing investment policy statements, building portfolios, and making asset allocation decisions including sell, hold, and buy decisions within a client's portfolio. The program consists of two parts designed for a total of approximately 120-150 hours of study. The first part includes an 11 module self-study course with an online, proctored exam. Students successfully completing the exam matriculate to the second part of the program. That part consists of a four week, instructor-led, online graduate course requiring successful completion of several graded assignments involving investor policy statements, portfolio construction, asset allocation, and portfolio buy, sell, and hold decisions. The program must be completed within one year from enrollment.

Chartered Market Technician[®]; CMT Association; 2022

Completing the CMT[®] Program demonstrates mastery of a core body of knowledge of investment risk in portfolio management. The CMT[®] Program is grounded in behavioral economics and extends beyond classical pattern recognition techniques to include quantitative approaches to market research and rules based trading system design and testing. Technical analysis provides the tools to successfully navigate the gap between intrinsic value and market price across all asset classes through a disciplined, systematic approach to market behavior and the law of supply and demand. Candidates must have three years of professional analytical or investment management experience, pass three exams, and complete an application for Member Status. To maintain status as a CMT[®] charterholder, an individual must be a member of the CMT[®] Association in good standing and abide by the CFA Institute's Code of Ethics and Standards of Professional Conduct.

Certified Financial Planner[®] professional (CFP[®]); 2022

I am certified for financial planning services in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP Board”). Therefore, I may refer to myself as a CERTIFIED FINANCIAL PLANNER[®] professional or a CFP[®] professional, and I may use these and CFP Board’s other certification marks (the “CFP Board Certification Marks”). The CFP[®] certification is voluntary. No federal or state law or regulation requires financial planners to hold the CFP[®] certification. You may find more information about the CFP[®] certification at www.cfp.net.

CFP[®] professionals have met CFP Board’s high standards for education, examination, experience, and ethics. To become a CFP[®] professional, an individual must fulfill the following requirements:

- **Education** – Earn a bachelor’s degree or higher from an accredited college or university and complete CFP Board-approved coursework at a college or university through a CFP Board Registered Program. The coursework covers the financial planning subject areas CFP Board has determined are necessary for the competent and professional delivery of financial planning services, as well as a comprehensive financial plan development capstone course. A candidate may satisfy some of the coursework requirement through other qualifying credentials. CFP Board implemented the bachelor’s degree or higher requirement in 2007 and the financial planning development capstone course requirement in March 2012. Therefore, a CFP[®] professional who first became certified before those dates may not have earned a bachelor’s or higher degree or completed a financial planning development capstone course.

- **Examination** – Pass the comprehensive CFP® Certification Examination. The examination is designed to assess an individual’s ability to integrate and apply a broad base of financial planning knowledge in the context of real-life financial planning situations.
- **Experience** – Complete 6,000 hours of professional experience related to the personal financial planning process, or 4,000 hours of apprenticeship experience that meets additional requirements.
- **Ethics** – Satisfy the Fitness Standards for Candidates for CFP® Certification and Former CFP® Professionals Seeking Reinstatement and agree to be bound by CFP Board’s Code of Ethics and Standards of Conduct (“Code and Standards”), which sets forth the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements to remain certified and maintain the right to continue to use the CFP Board Certification Marks:

- **Ethics** – Commit to complying with CFP Board’s Code and Standards. This includes a commitment to CFP Board, as part of the certification, to act as a fiduciary, and therefore, act in the best interests of the client, at all times when providing financial advice and financial planning. CFP Board may sanction a CFP® professional who does not abide by this commitment, but CFP Board does not guarantee a CFP® professional's services. A client who seeks a similar commitment should obtain a written engagement that includes a fiduciary obligation to the client.
- **Continuing Education** – Complete 30 hours of continuing education every two years to maintain competence, demonstrate specified levels of knowledge, skills, and abilities, and keep up with developments in financial planning. Two of the hours must address the Code and Standards.
